

Software Requirements Specification (SRS)

FDE Campus

An AI-First Learning Initiative by GlobalLogic

Version: 1.0

Document Type: Frontend Software Requirements Specification

Technology Stack: React (TypeScript), Tailwind CSS, Framer Motion

1. Introduction

1.1 Purpose

The purpose of **FDE Campus** is to create a modern, AI-first, enterprise-grade learning platform for **GlobalLogic** that showcases the **Forward Deployed Engineer (FDE)** career stream, learning programs, mentors, career progression, and business impact.

The website should educate, inspire, and encourage professionals to enroll in the FDE learning programs while reflecting GlobalLogic's AI-first vision.

1.2 Scope

This SRS covers **Frontend Development only**.

The website will include:

- Company branding
- FDE awareness
- Learning programs
- Career progression
- Curriculum

- Mentors
- Testimonials
- Career roadmaps
- Salary growth
- Contact
- Apply Now

Backend development, authentication, payment, and CMS are outside the current scope.

2. Technology Stack

Component	Technology
Framework	React 19
Language	TypeScript
Styling	Tailwind CSS
Build Tool	Vite
Routing	React Router DOM
Animation	Framer Motion
Icons	Lucide React
Carousel	Swiper.js
Forms	React Hook Form
Validation	Zod

3. Branding

Website Name

FDE Campus

Tagline

An AI-First Learning Initiative by GlobalLogic

Logo Usage

The GlobalLogic logo shall be displayed in:

- Navigation Bar
 - Hero Section
 - Footer
 - Loading Screen
-

4. Design System

The website should follow the modern enterprise style inspired by the provided Behance reference.

Design Language

- Dark Theme
 - Minimal Layout
 - Glassmorphism
 - Large Typography
 - Rounded Components
 - Spacious Layout
 - Smooth Motion
 - Enterprise SaaS Appearance
-

Color Palette

Purpose	Color
Primary Background	#0F0F10
Secondary Background	#17181D

Card Background	#202229
Primary Accent	#E56A1A
Secondary Accent	#FF8A3D
Primary Text	#FFFFFF
Secondary Text	#A8ADB7
Border	#2D3138

Typography

Recommended fonts:

- Space Grotesk
- Plus Jakarta Sans
- Manrope

Font hierarchy:

- Hero Title – 72–88px
 - Section Title – 52–64px
 - Card Title – 24–30px
 - Body Text – 18–20px
 - Buttons – 16–18px
-

5. Website Structure

Home

6. Functional Modules

Module 1 – Hero Section

Components

- GlobalLogic Logo
- Website Branding
- Hero Headline
- Description
- CTA Buttons
- Hero Image
- Animated Background

Buttons

- Explore Programs
 - Apply Now
 - Download Brochure
-

Module 2 – Why Forward Deployed Engineers?

This section introduces:

- Business Imperative
 - Industry Need
 - AI Transformation
 - Time-to-Value
 - Talent Gap
-

Module 3 – Interactive FDE Framework

Interactive Venn Diagram

Three pillars:

- Business Context
- Technology Expertise
- Real-Time Execution

Center

Consulting

Module 8 – Program Comparison

Comparison table including:

- Audience
 - Duration
 - Learning Focus
 - Career Outcomes
 - Certification
-

Module 9 – Curriculum

Accordion-based module list.

Senior FDE includes:

1. Customer Discovery
 2. Solution Architecture
 3. Engineering Excellence
 4. Intelligent Solutions
 5. Production Scale
 6. Customer Transformation
 7. Residency
 8. Executive Board Review
-

Module 10 – Capability Pillars

Four cards

- AI & GenAI Foundations
 - Cloud & Modern Engineering
 - Solution Design & Architecture
 - Consulting & Customer Engagement
-

Module 11 – Learning Activities

Interactive cards

- Client Discovery
- Live Projects

- AI Challenges
 - Business Workshops
 - Residency
 - Executive Reviews
-

Module 12 – Meet the Mentors

Mentor profiles including:

- Photo
 - Name
 - Role
 - Experience
 - Expertise
 - LinkedIn
-

Module 13 – Learning Experience

Timeline

Mentorship

↓

Labs

Module 14 – Enterprise Projects

Project showcase with:

- Problem Statement
 - Solution
 - Business Impact
 - Learning Outcome
-

Module 15 – Implementation Roadmap

Use the provided roadmap as an **interactive timeline**.

Stages

- UX Research
- Wireframing
- UI Design
- Animation
- Development
- QA

Each milestone expands with additional details.

Module 16 – Career Roadmaps

Multiple paths

- Engineering
 - AI
 - Consulting
 - Architecture
 - Leadership
-

Module 17 – Salary Growth

Interactive salary graph

Includes

- Expected Growth
 - Career Hike
 - Promotion Timeline
-

Module 18 – Placement Support

Display

- Resume Building
 - Mock Interviews
 - Career Mentorship
 - Hiring Partners
-

Module 19 – Success Stories

Carousel

Includes

- Testimonials
 - Video Reviews
 - Success Stories
-

Module 20 – Program Statistics

Animated counters

- Students
 - Mentors
 - Projects
 - Hiring Partners
 - Success Rate
-

Module 21 – Certification

Certificate preview

Digital Badge

Certification Benefits

Module 22 – FAQ

Categories

Module 23 – Blogs

Categories

- AI
 - Enterprise
 - Architecture
 - Career
 - Engineering
-

Module 24 – Events

Upcoming Events

Past Events

Registration

Module 25 – Contact

Contact Form

Phone

Email

Social Links

Module 26 – Apply

Multi-step application form

- Personal Details
 - Education
 - Experience
 - Resume Upload (UI only)
 - Confirmation
-

Module 27 – Footer

Includes

- GlobalLogic Logo
 - Website Branding
 - Quick Links
 - Privacy Policy
 - Social Media
-

7. Smart Header Behavior

The navigation bar shall:

- Be transparent over the Hero section.
- Hide when the user scrolls down.
- Reappear when the user scrolls up.
- Become sticky after leaving the Hero section.
- Transition to a glassmorphism background.
- Highlight the active section.
- Support smooth scrolling.

- Collapse into a mobile drawer on smaller screens.
-

8. Image Usage

9. Animation Requirements

Animations shall be implemented using **Framer Motion**.

Global Animations

- Fade In
- Slide Up
- Scale
- Staggered Reveal

Hero

- Floating Particles
- Animated Gradient
- Text Reveal
- Image Parallax

Cards

- Hover Lift
- Glow Border
- Scale
- Shadow

Timeline

- Draw Animation
- Expand Nodes

Buttons

- Ripple
- Glow
- Hover Scale

Counters

- Count-up Animation

Page

- Smooth Route Transitions
 - Section Reveal on Scroll
-

10. Responsive Design

The website shall be optimized for:

- Desktop
- Laptop
- Tablet
- Mobile

Using Tailwind CSS breakpoints:

- sm
 - md
 - lg
 - xl
 - 2xl
-

11. Accessibility

The website shall comply with WCAG 2.1 AA.

Requirements include:

- Keyboard navigation
 - Screen reader support
 - Semantic HTML
 - Focus indicators
 - Alternative image text
 - Sufficient color contrast
-

12. Performance Requirements

- Lighthouse Performance ≥ 90
- Accessibility ≥ 95
- SEO ≥ 90
- Lazy loading for images
- Optimized assets

- Route-based code splitting
 - Fast initial load time
-

13. Folder Structure

```
src/
├── assets/
│   ├── images/
│   ├── logos/
│   ├── icons/
│   └── videos/
├── components/
├── pages/
├── hooks/
├── utils/
├── services/
├── types/
├── data/
├── animations/
├── routes/
├── App.tsx
├── main.tsx
└── index.css
```

14. Deliverables

The final frontend deliverables include:

- Responsive React (TypeScript) application
- Tailwind CSS design system
- Framer Motion animations
- Smart sticky header
- Interactive FDE Venn diagram
- Career progression timeline
- Interactive implementation roadmap
- Program comparison
- Curriculum accordions
- Mentor and testimonial carousels
- Career roadmap visualizations

- Responsive navigation
 - Production-ready modular codebase
-

15. Future Scope

The platform shall be designed to support future enhancements, including:

- Student Login and Dashboard
 - Learning Management System (LMS)
 - Progress Tracking
 - Online Assessments and Quizzes
 - Certificate Verification
 - Admin CMS for Programs, Blogs, and Events
 - Mentor Management
 - AI-powered Course Recommendations
 - Chatbot Assistance
 - Batch Management
 - Event Registration
 - Notifications and Announcements
 - Analytics Dashboard
 - Multi-language Support
 - Dark/Light Theme Toggle
 - Integration with GlobalLogic's internal learning ecosystem
-

Summary

The **FDE Campus** website is envisioned as a premium, AI-first learning platform that blends enterprise branding with modern web experiences. Built using **React (TypeScript)**, **Tailwind CSS**, and **Framer Motion**, it will emphasize storytelling, interactive learning pathways, animated visualizations, and a polished user interface inspired by the provided design reference. The result will be a scalable frontend that showcases GlobalLogic's Forward Deployed Engineer initiative while providing an engaging experience for prospective learners and stakeholders.
